Dear Joshua,

I am very pleased indeed that you now are a foreign member of our Royal Society. It makes me think of the first time when I met you, in Cold Spring Harbor in 1951, when you were a very young, very bright, very arrogant and very likeable chap, who talked from 7 pm to 1 am on transduction.

I expect you will at some time have to "sign the book" of the R.S. in London. I would be so nice if you could use this opportunity for a visit to Scotland, ~~which~~ which - weather permitting - is a very beautiful country.

With congratulations and kind regards,

yours sincerely,

Lotte Auerbach ↓↓
